Chennai • 8838028435 • venkatkrishnan060@gmail.com • linkedin.com/in/venkateswara-rao-mk

Detail-oriented QA Engineer with 1.9 years of experience in manual and automation testing, specializing in ensuring high-quality software delivery. Proficient in designing and executing test cases, identifying defects, and collaborating with cross-functional teams to improve product quality. Hands-on experience in automation testing using tools like Playwright/Selenium, along with strong knowledge of SDLC and STLC processes. Adept at API testing, regression testing, and functional validation with a focus on delivering reliable and scalable applications. Passionate about continuous learning and improving testing efficiency through automation.

WORK EXPERIENCE

Bidgely Technologies private Limited QA Engineer I

04/2024 - 11/2025
Bangalore

- Execute end-to-end functional testing for core web applications, resulting in a 20% reduction in post-release defects.
- Collaborate with developers and product managers in Sprint Planning and Daily Stand-ups to define acceptance criteria.
- Author and maintain over 500+ Test Cases and Test Scenarios within Jira, ensuring 100% requirement coverage.
- Perform thorough Regression Testing during bi-weekly release cycles to ensure system stability.
- Identify, document, and track software defects to resolution using Jira, providing detailed reproduction steps and logs.
- Validate API endpoints using Postman to ensure seamless data flow between the front-end and back-end.
- Conducted Cross-Browser Testing across Chrome, Firefox, and Safari to ensure UI consistency.
- Performed Mobile App Testing on iOS and Android devices, identifying critical performance bottlenecks.
- Developed a Requirement Traceability Matrix (RTM) to map business requirements to specific test cases.
- Integrated Automation scripts with CI/CD pipelines (e.g., Jenkins/GitHub Actions) to support continuous testing.
- Assisted the UAT team by preparing test data and environment setups for client-side validation.
- Participated in Root Cause Analysis (RCA) for production issues to prevent future recurrences.

EDUCATION

Master of Computer Applications (MCA)

SRM UNIVERSITY • GPA: 8.34

Chennai, Tamil Nadu • 08/2022 - 05/2024

SKILLS

Testing Methodologies: Black Box Testing, Exploratory Testing, Integration Testing, Jmeter, Manual Testing, Regression Testing, Sanity/Smoke Testing, User Acceptance Testing (UAT)

Defect Management: Azure DevOps, Jira

Documentation: Bug Reports, Test Cases, Test Plans, Test Scenarios, Traceability Matrix (RTM)

Tools & Platforms: BrowserStack, Chrome DevTools, CI/CD, iOS/Android, Jenkins, Jmeter, Playwright, Postman (API Testing), SQL, Windows/macOS

Methodologies: Agile/Scrum, SDLC, STLC, Waterfall
